Hi Erik,

I hope all is well. Maysam Kiyani was leading the pooled fund project on Exploration of Variations in Guardrail Approach Transition to Rigid Barrier. You were the Tech. Rep. for this project. As you may already know, Maysam has left TTI. I am following up on the projects he was working on to make sure we have met all the deliverable requirements. It is my understanding that you had reviewed a draft of this project's final report and TTI then addressed those comments and sent a final report deliverable for your approval. The PDF of the final report is linked below. Would you please confirm that you have approved the final report?

Thanks! If you have questions, please let me know.

Regards,  
Nauman
