Hi Nauman,

Can I add this project to the MASH database for the TPF 5(501) Pooled Fund?

Hi William and Nauman –

Kim Rydholm has reviewed the report and finds it acceptable (see attached e-mail). I have performed a final review of the report and only have a few minor comments which need to be addressed (see attached pdf document). Once you address my final minor comments, the report is acceptable and ready for publishing. There's no need to have me review it again after you have addressed the last few minor comments.

Please send Mustafa Mohamedali and I the finalized copy of the report once it has been completed.

Thank you,

Tim Moeckel, P.E.

Hi William and Nauman –

I have forwarded the report to Kim Rydholm (WSDOT) on 6/29 for review. He office funded this project. I still haven't received a reply from her. I looked at her schedule and she's on A/L until July 24th. So, I'll be reaching out to her again when she gets back and hopefully we'll get the draft crash report review completed by the end of July at the latest so this report can be finalized.

Thanks for your patience!

Hi Nauman –

Overall, the report looks good! Thanks so much for your work on this. Please see the attached file with my comments/suggested revisions. Please update the draft final report and send back to me for a final review. I plan on sharing the updated draft with the Fish Passage Office for their review at that time. Thanks!
